Smart City Solutions in India

“99 smart cities have been selected and to be allocated Rs 2.04 lakh crore (\$30 B)

2020: \$1.5 trillion market

MoHUA has released [Solution Exchange for Transformation of Urban India](#)

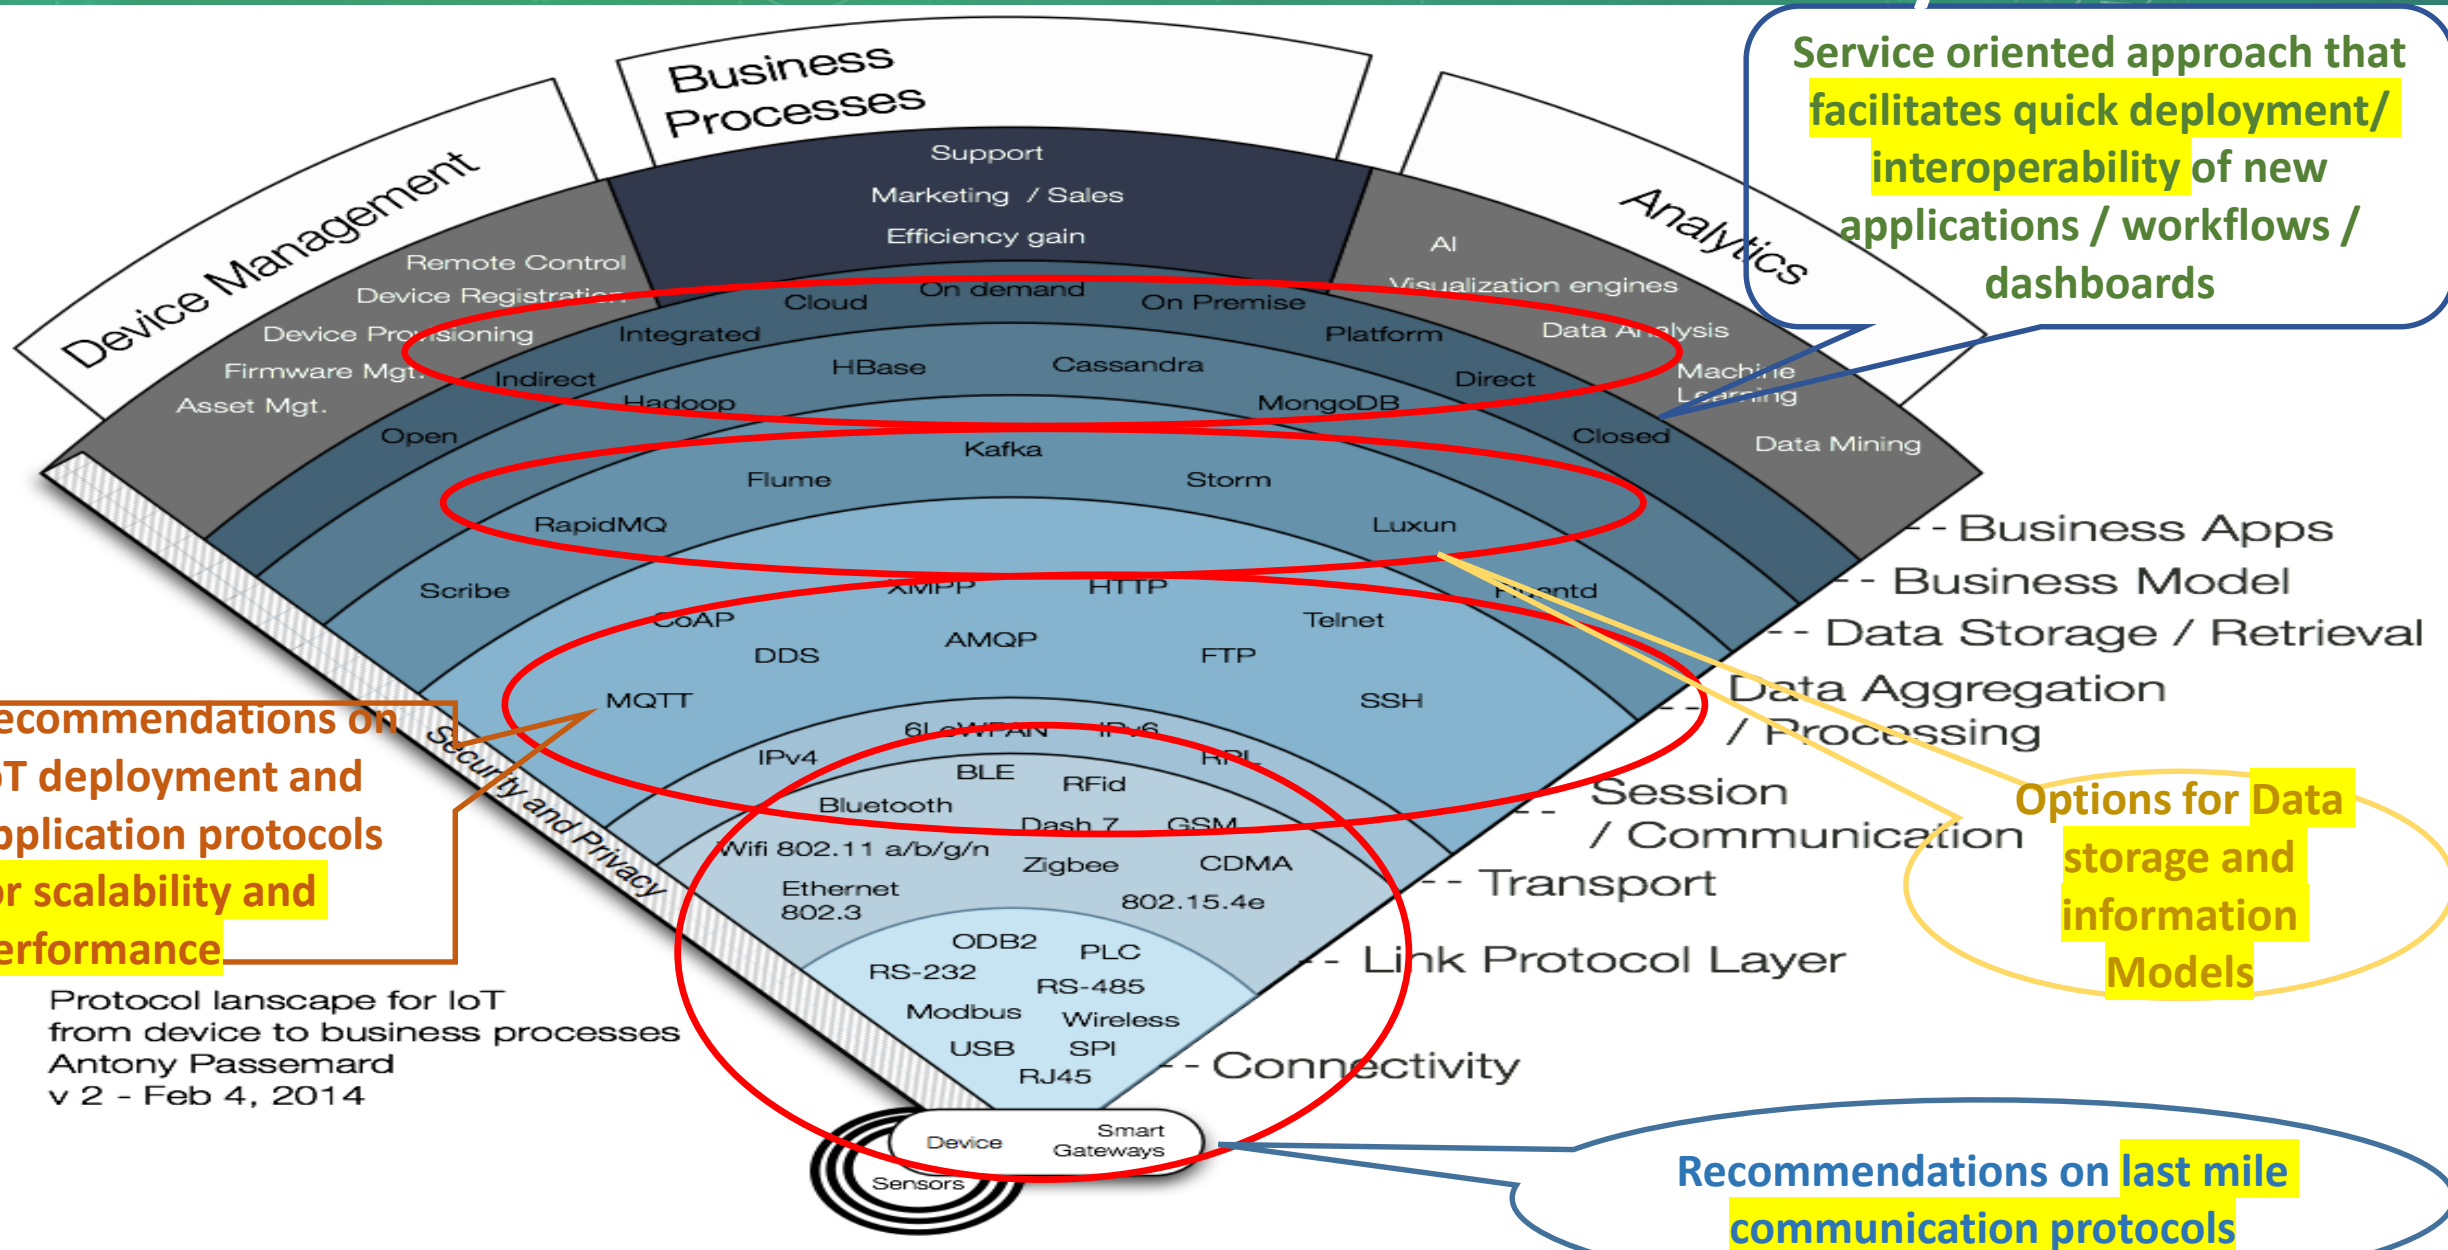

[Integrated Command and Control Center: Maturity Assessment Framework](#)

[Smart cities Promoting Innovation Research and Incubation in Technology \(SPIRIT\)](#)

[DataSmart Cities: Empowering Cities through Data](#)

QUEST for an Interoperable Common Services Platform – Is **oneM2M** the answer?

Dilemma for the SMART CITY SPV today

IoT SDOs and Alliances Landscape (Vertical and Horizontal Domains)

Home/Building

Manufacturing/
Industry Automation

Vehicular/
Transportation

Healthcare

Energy

Cities

Wearables

Farming/
Agrifood

Horizontal/Telecommunication

IoT & Smart Cities: challenges...

Force fitting solutions - without factoring in India specific needs

Advancements in technology - rapid and disruptive

Inappropriate last mile solutions - Deployment diversity

Limited Tech know-how by Administrators and City Officials

Unstandardised disharmony - No common framework and architecture

Restricted, closed solutions – vendor lock-in, proprietary interfaces

Examples of failure due to technology, business & functional
misalignment - Nirbhaya tender cancellation, Bangalore Traffic+Metereology

RECIPE FOR SURE SHOT ...

Force fitting solutions - without factoring in India specific needs

Advancements in technology - rapid and disruptive

Inappropriate last mile solutions - Deployment diversity

Limited Tech know-how by Administrators and City Officials

Unstandardised disharmony - No common framework and architecture

Restricted, closed solutions – vendor lock-in, proprietary interfaces

Examples of failure due to technology, business & functional
misalignment - Nirbhaya tender cancellation, Bangalore Traffic+Metereology

oneM2M as National STD
STANDARDISATION ROADMAP
3GPP Release 17

FORMING

STORMING

NORMING

PERFORMING

TSDSI's contributions & engagements at oneM2M

CONTRIBUTIONS

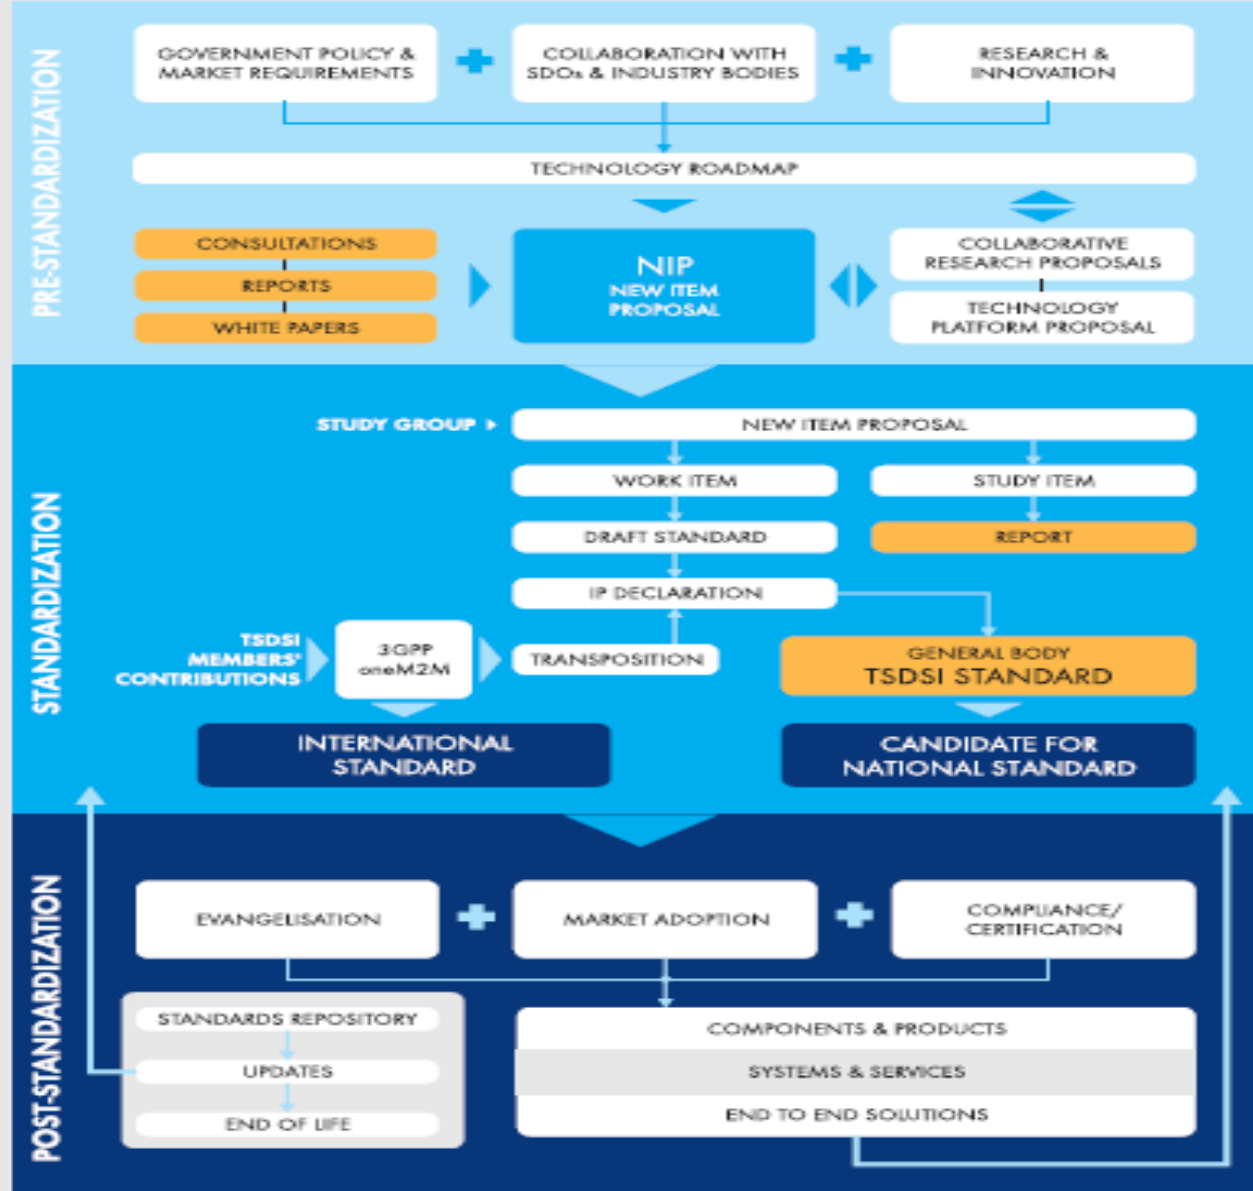

- TSDSI has 5 IMs for oneM2M – More in pipeline.
- C-DOT developed a Common Service Platform based on oneM2M . Made 100+ contributions & participated in Inter-op events.
- **TSDSI transposed Release 2 (2017) – DoT approval as National Standard in process**
- TSDSI to Transpose Release 3 shortly (Published by oneM2M in May 2019)

Working Groups (oneM2M)	Contributions
Architecture (ARC)	21
Protocols (PRO)	64
Security (SEC)	2
Testing (TST)	3
Total	90

ENGAGEMENTS

- Indo EU collaboration- Hackathons and Tutorials
- TP # 31 in Bangalore during 19th to 23rd Sept 2017 with over 50 Global participants
- Industry Day with 90+ participants & 20+ global & Indian speakers
- TSDSI contributing man days to MARCOM & Work Program activities remotely
- TSDSI TEC CDOT studying over sixty Global installations based on oneM2M
- **TSDSI to host TP # 42 in September 2019 in Hyderabad with Industry day and inter-op event**

Standards Life Cycle

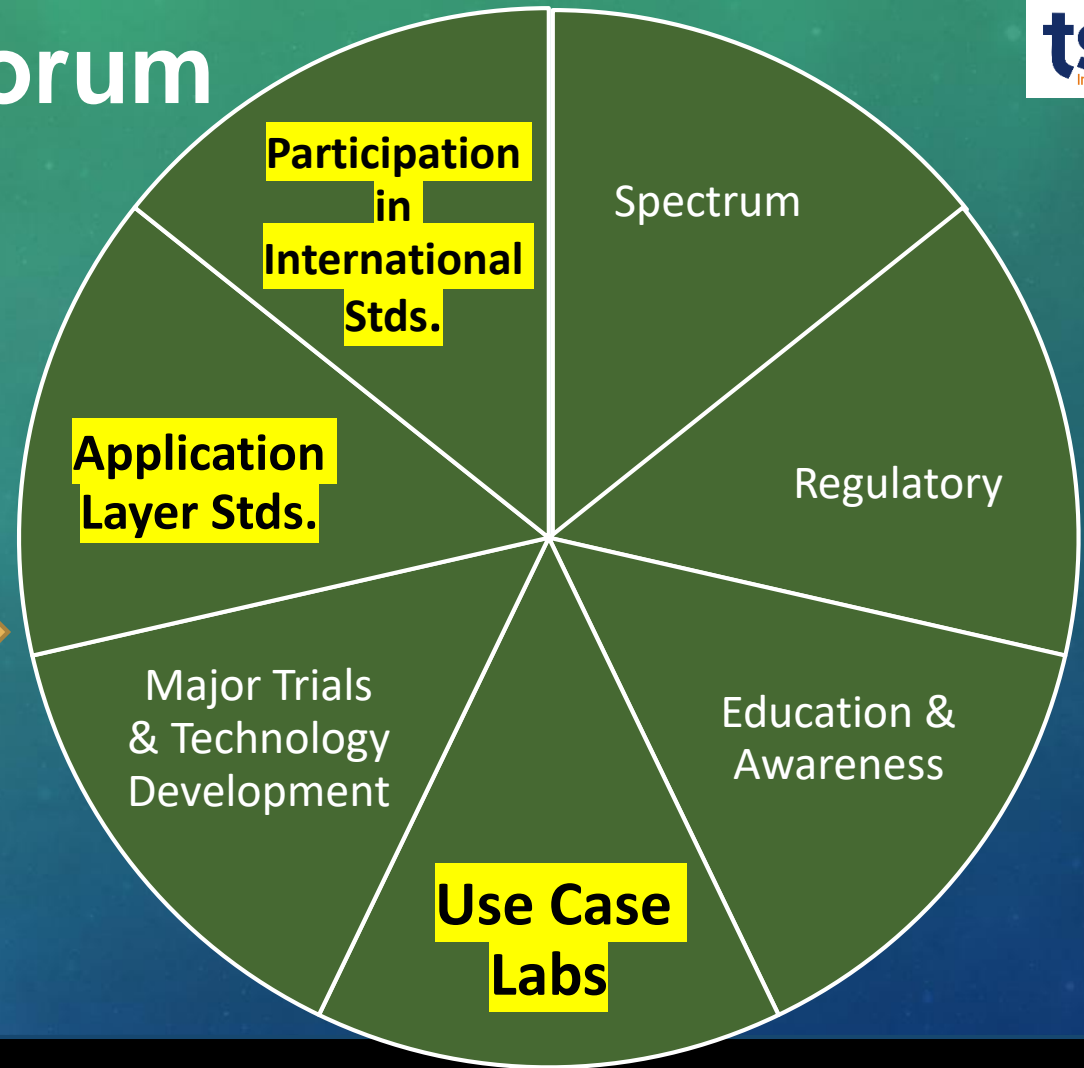

Study Group- Networks

- CPRI FrontHaul
- Channel Characteristics : 60GHz for 4G/5G backhaul
- Enablers for Private Networks
- NB-IoT Extension
- Broadcast offload
- Spectrum Studies
- IMT2020 (5G) technologies ; 3GPP Release 17

Study Group- Services & Solutions

- Cloud Interoperability and Portability
- Public Protection and Disaster Recovery
- Dual SIM Services
- Support for Indian Languages
- Information Centric Networking
- UAV/Drone Communications and Services
- M2M/IoT
- Security and Privacy
- oneM2M

5G India 2020 High Level Forum

5G technology has the potential of ushering a major societal transformation in India by enabling rapid expansion of the role of information technology across manufacturing, educational, healthcare, agricultural, financial & social sectors.

India must embrace this opportunity by deploying 5G networks early, efficiently, and pervasively, as well as emerge as a significant innovator and technology supplier at the global level.

Emphasis should be on 5G touching the lives of rural and weaker economic segments to make it a truly inclusive technology.

USE CASE LABS OBJECTIVES & OUTCOMES

Study and Analysis of India specific Use Cases

Development of Requirements, SLAs and Test Cases

Market Enablement, Accelerated deployment, Research, Innovation, Standards, Applications, Services & Products

FRAMEWORK for the Labs :

USER GROUP	TECHNOLOGY GROUP	FACILITATORS	ACTIVITIES
End User Ministries	Technology Ministries	Govt. Agencies	DEMOs & Simulations : Hands-on experience for USER Group
TSPs/ ISPs	Vendors, OEMs; Start-ups	Global Partners	Study, analysis and modelling of India Specific Usage Scenarios, challenges & Use Cases
Domain/Mngt Institutes; Use Case Experts	Technology Institutes; Researchers & Innovators	Professional Bodies	Proof of concept testing, Interoperability and pilot testing

SCOPE - In line with national initiatives like Digital India, Smart Cities etc. and the focus areas in 5G :

SMART COMMERCE /BANKING :
Department of financial services,
LAB @ IDRBT

INTELLIGENT TRANSPORT :
Ministry of Railways
Ministry of Road Transport & Highways

SMART AGRICULTURE:
Department of Agriculture & Farmers Welfare

SMART CITIES :
Ministry of Housing & Urban Affairs

SMART GRID :
Ministry of Power

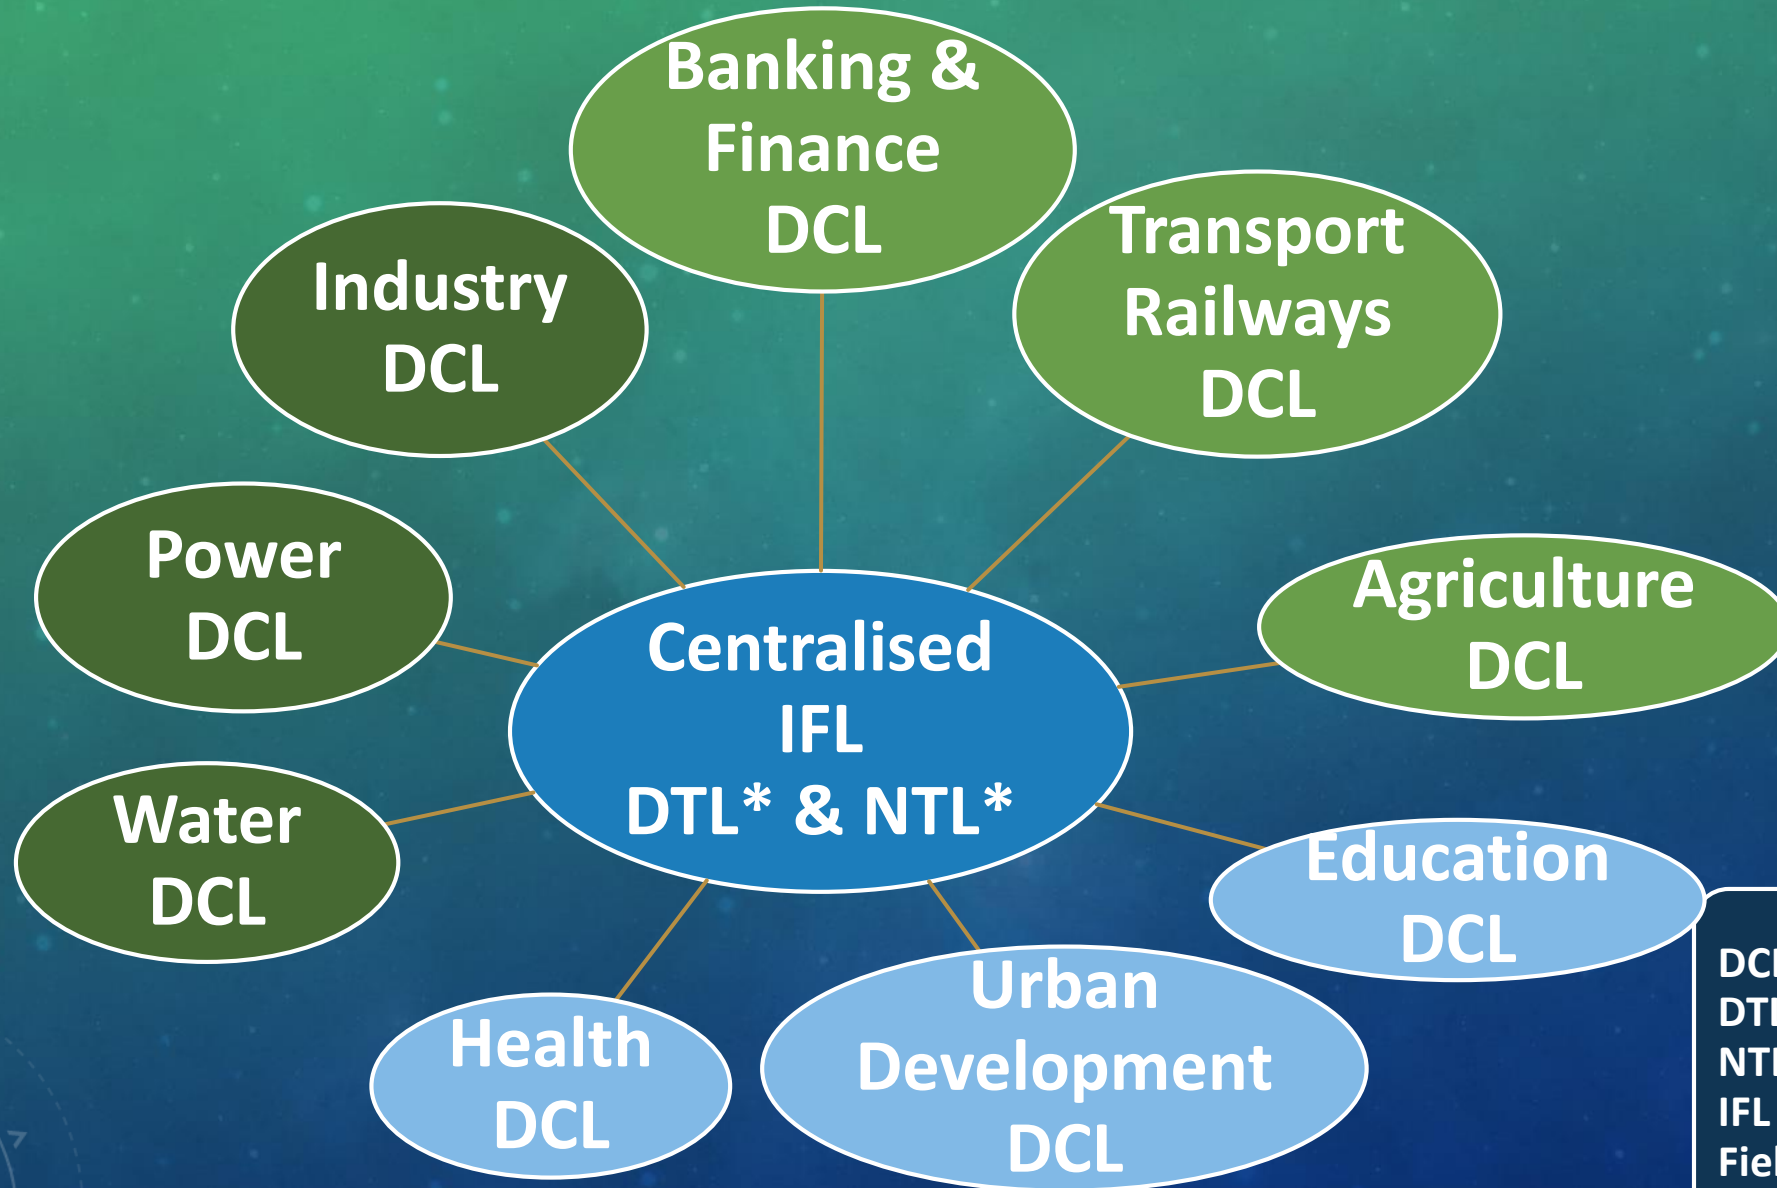

SMART WATER :
Ministry of Water Resources, River Development & Ganga Rejuvenation

INDUSTRY 4.0
Department of Industrial Policy and Promotion

SMART EDUCATION :
Department of Higher Education
Department of School Education

SMART HEALTH:
Department of Health & Family Welfare

NETWORK OF LABS

First Set of LABS

Second Set of LABS

Third Set of LABS

DCL - Demo and concept Lab
DTL - Device Testing Lab
NTL - Network Testing Lab
IFL - Interoperability and Field Scenario Test Lab

Application Layer Standards

DOMAIN Working Groups

USE CASE LABS

MAJOR TRIALS

Smart Cities

OPEN ++

STRENGTHENING THE GLOBAL FOOTPRINT

Opportunities for members @ TSDSI

- Pre-standardisation :

- Govt Consultations – *NDCP, Strengthening the STDs Framework*
 - 5G India2020 Forum – Use Case Labs; Education, Awareness & Promotion
 - Spectrum for 5G – *White paper*
- Numerous workshops - *Smart City, Security, PPDR, Cloud Computing etc.*
- Global Collaborations – Indo EU, Indo Taiwan, IEEE 5G World Forum
- Conferences, tradeshow – IMC, World Telecom Day, NCC, COMSNETS

- Standardisation :

- Participate in Standardisation Roadmap Committee
- Participate in SG/WGs - Submit your use cases & innovations as NIPs, Contribute to ongoing Work Items
- Collaborate & Participate in 3GPP , OneM2M , ITU- R/T.

STANDARDS are the Collaboration piece of
“Co-opetition”
The TOOL is Consensus Building,
&
It is a lot of fun and learning in an open, fearless
forum
THANK YOU
