MESSAGE

Centre for Development of Telematics is observing Vigilance Awareness Week, 2018 from 29th October, 2018 to 3rd November, 2018, as per the guidelines of Central Vigilance Commission (CVC). The central theme for this year is “Eradicate Corruption – Build a New India”.

A number of activities have been planned during the week to create awareness amongst C-DoTians and its various stakeholders about the importance of Vigilance. This year also few outreach activities are being conducted during the week by involving nearby schools such as lectures and competitions amongst students on moral values.

The main aim of these awareness activities is to reinforce our commitment towards “Zero tolerance” to corruption. This cannot be gainsaid that most of the socio-economic conundrums in our country stem from corruption. It is therefore pivotal that corruption is eradicated from the roots to build a New India of our dreams.

During the last one year, a number of initiatives have been taken by C-DoT to promote transparency and accountability. Annual Immovable Property Returns were filed by all the staff for the first time. In another first, sensitive posts were identified in the Organisation and transfers of staff from such sensitive posts were carried out. In line with the core strategy of “Leveraging technology to prevent corruption”, actions have been initiated to make procurements through GeM (Government e- Marketplace) in C-DOT. Introduction of e-procurement is also on the cards.

I take this opportunity to appreciate the efforts made by one and all in implementation of the aforesaid Preventive Vigilance measures. On this occasion, I appeal to all fellow C-DoTians to renew their commitment to integrity and probity in all their public and personal dealings.
